OJ & Campari.  
8.99

### Why Six Car?

At the turn of the 20th century, a trolley system once connected the industrial and business centers of old Amarillo to its most historic neighborhoods. At its height, six street cars ran throughout the city. The hand-drawn map of downtown Amarillo in our main dining room shows the route of some of these street cars. Our name is an homage to this near-forgotten piece of local history. Here at Six Car, we hope to respect the past and craft the future.
